Deliver Value

'Contribute to a better future by creating value together'

Values Driven

ABOUT US

H₂O are passionate about contributing to a better future by creating value together. Through our focus on personal and cultural evolution and transformation, we help leaders and cultures become more values-driven, because we whole-heartedly believe that this is a positive change crucially needed on our planet right now.

United cultures engage their people. When they're engaged, they bring their creative and discretionary energy to work. And that's where the magic happens. New ideas and higher productivity. Stats show increases of 300-1200% productivity between engaged and disengaged workers.

As specialists in [Cultural Transformation Tools®](#) and the [Barrett Model](#), H₂O provides the key methodology, tools and expertise to deliver exceptional culture transformation.

In order to gain reach and deliver challenging and exciting projects which make a real and lasting difference, we partner with other businesses and individuals who share our principles, values and beliefs so we can co develop products and services with people we trust and respect.

Kim Paterson—Director & Co-founder:

"I'm excited by this collaboration with Claire, as we both truly believe employees who feel they work in a loving, caring culture experience higher levels of satisfaction and teamwork. The same goes for Customers, make customer service part of your mission, and make your mission a part of everything your organization does. Then, structure and incentivise your team so employees can work independently to solve customer problems and think creatively."

"Never has there been a more exciting time for all of us to explore this next great frontier where the boundaries between work and higher purpose are merging into one, where doing good really is good for business." *Sir Richard Branson*

We Believe:

In creativity, not competition

Expansion; everyone gets better as a result of our work

Be BRAVE, Value FUN & PEOPLE
